ReactJS and NodeJS PDF Generation and Interview Questions

A guide to generating PDFs in ReactJS and NodeJS, along with common interview questions

Introduction to PDF Generation

- Generating PDFs in ReactJS and NodeJS
- Using libraries like jsPDF and pdfMake
- Server-side rendering with NodeJS

ReactJS PDF Generation Libraries

- jsPDF: a popular JavaScript library
- pdfMake: a browser-based PDF generator
- react-pdf: a ReactJS component for PDF rendering

NodeJS PDF Generation Libraries

- pdfkit: a NodeJS library for generating PDFs
- wkhtmltopdf: a command-line utility for converting HTML to PDF
- pdfjs: a NodeJS library for parsing and generating PDFs

Common ReactJS Interview Questions

- What is JSX and how does it work?
- How do you handle state changes in ReactJS?
- What is the difference between a controlled and uncontrolled component?

Common NodeJS Interview Questions

- What is the difference between synchronous and asynchronous programming?
- How do you handle errors in NodeJS?
- What is the purpose of the 'req' and 'res' objects in ExpressJS?

PDF Generation Best Practices

- Optimizing PDF file size for web use
- Using fonts and images in PDFs

- Security considerations when generating PDFs

Troubleshooting PDF Generation Issues

- Debugging PDF generation errors
- Handling font and image loading issues
- Resolving layout and formatting problems
